

RIDHO HAFIZ

.NET | GOLANG - SOFTWARE DEVELOPER

PROFESSIONAL SKILLS

- Backend Development
- RESTful API
- gRPC
- RabbitMQ
- Scheduler Services
- Web Services / WSDL
- Microservices
- Database (SQL & NoSQL)
- Minio & FTP
- Socket.IO
- Research & Development (R&D)
- Hardware Interface Integration

PERSONAL SKILLS

- Problem Solving
- Communication Skills
- Negotiation
- Time Management
- Adaptability
- Critical Thinking
- Resilience and Patience
- Collaboration and Teamwork

INTEREST

- Programming Languages
- Software Architecture and Design Patterns
- Artificial Intelligence and Machine Learning
- Open Source Projects
- Cybersecurity
- Data Science and Big Data

WORK EXPERIENCE

PT Nutech Integrasi

Hardware Interface Programmer | April 2020 - August 2022

Role Overview:

As a Desktop front-end developer at PT. ASDP Indonesia Ferry, I played a pivotal role in the development and maintenance of an electronic ticketing application. My responsibilities included enhancing user interfaces, implementing new features, and ensuring seamless integration with backend systems.

Key Contributions:

Application Maintenance and Development:

- Spearheaded maintenance efforts and developed new features for the desktop application, ensuring optimal performance and user experience.

Integration with RESTful API and Socket.IO:

- Implemented robust integration mechanisms with RESTful APIs and Socket.IO for real-time communication, enhancing the application's responsiveness and scalability.

R&D in Hardware Solutions:

- Conducted research and development activities focused on hardware solutions such as E-KTP, E-Passport, and scanning technologies. Contributed insights to optimize hardware integration within the application ecosystem.

PT Bank Rakyat Indonesia

Software Engineer | August 2022 - Now

Experience Summary:

Contributed to the development applications B2B at Bank BRI. My main focus was on improving performance and adding new features.

Job Details:

- Developed and enhanced the service scheduler with .NET Framework, improving speed and integration with web services.
- Developing a microservice application using Golang (Go). Integrated with RESTful API and gRPC.
- Developing an insurance application that integrates with WSDL (Web Services Description Language) and uses the .NET Framework

Achievements and Contributions:

- Successfully enhanced efficiency and reliability of services in these projects. Actively collaborated with the team to achieve common goals.

Skills Developed:

- Expanded my understanding of software development and enhanced skills in using various technologies in banking. Able to work effectively in teams.

EDUCATION

DIPLOMA OF ENGINEERING, MAJOR IN ELECTRONICS
Universitas Negeri Jakarta

BACHELOR DEGREE, COMPUTER SCIENCE
Binus University | Undergraduate
